

MANNA

God Is Still God

Lauren M.

He is the only true living God; there is no one else like Him. He created the world and everything in it. He is the same God yesterday, today and forever more. (Heb.13:8).

God is still God no matter what, the world as we know it is changing, but God has not. He is still in control. God is still the supreme authority over His creation, He is Omniscient (all knowing), Omnipotent (all-powerful), and Omnipresent (everywhere).

God is still loving, faithful, merciful, holy and longsuffering. His commands are to be obeyed and His principles we are to live by. God is still God; I am the LORD I change not. (Malachi 3:6) His Word is written for the benefit of the believers with an expectation that we will obey and be transformed into the image of Jesus Christ.
